<p>Brief summary of the project Example:</p> <ul style="list-style-type: none"> ➤ Objective of the project ➤ Location of the project ➤ Scale of investment including planned source of investment ➤ Technology[ies] to be adopted for the project, and brief description of the technology[ies] ➤ Project implementation scheme, and role of each participant ➤ Current status and progress of the project 	<p>The proposed JCM project aims to increase capacity of a laundry facility at the boarding school and improve energy saving by introducing high-efficiency technologies. The project is located in Pandeglang, Banten, Republic of Indonesia and managed by PT Pundi Artha Ghani.</p> <p>The type of key technologies as follows:</p> <ul style="list-style-type: none"> • Econavi-inverter-active foam washing system (newly installed or installed to replace existing the washing machine system; new methodology is developed); • LED lighting (newly installed or installed to replace fluorescent lighting; methodology used: ID_AM005); and • Solar PV system (newly installed or installed solar V system; new methodology is developed). <p>The project implementation scheme can be seen in the figure 1 (please see Attachment I).</p> <p>The source of investment for the project activity will be obtained from equity and loan. Currently, the status of project activity is under pre-feasibility study.</p>
<p>Rough estimation of expected GHG emission reductions (unit: tCO₂/year)</p>	<p>The project is expected to reduce a total of tCO₂e greenhouse gas annually, among which tCO₂e/yr by econavi-inverter-active foam washing system, tCO₂e/yr by LED lighting and tCO₂e/yr by solar PV system.</p>
<p>Expected schedule up to the EPC completion and the registration under the JCM</p>	<p>Please refer to Attachment II.</p>
<p>Capacity building activity for the participant[s] of host country (cf. training on operation and maintenance of newly installed equipments, information sharing among stakeholders, organizing workshops, and/or study tour to Japan)</p>	<p>This section will be developed after engaging with the Japanese participant.</p>
